

SOTRAS

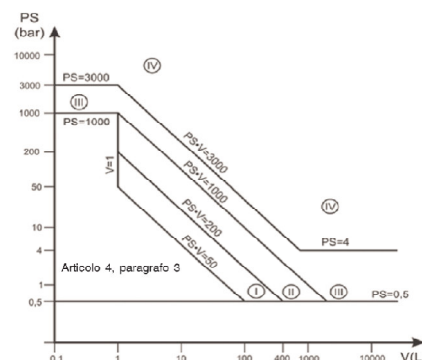

DECLARATION OF CONFORMITY

SOTRAS S.r.l., sited in Via Donatello,13 – Borgaro Torinese (TO), which manufactures SPIN-ON fluid/oil separators according to the CEE/CEEA/CE n. 68 of 15/05/2014 (**PED 14/68/CE**), about pressure equipments

STATES

Under its own responsibility, that **ALL the fluid/oil separators** produced currently, SPIN-ON type, are devices definable as "vessels designed to gases and gases dissolved under pressure", which have the following specifications:

| | | Applications for Fluids of group 2 rif. PED 2014/68/UE, art. 13, § b) | |
|-----------|-------------------------------|--|----------------------|
| PS | maximum allowable pressure | ≤ 16 bar | ≤ 20 bar |
| V | internal volume of the filter | ≤ 3,1 liters | ≤ 2,45 liters |

RESULTS

to be pressure **vessels** accessory according to art.4,a,i, dash of the above PED 14/68/CE), and to have characteristics (**PS*V**) < 50 that places them in the application area of art. 4, §3, and therefore do not require to be affixed with CE marking.
